EXPERIENCE

Junior Full-Stack Developer

Adven.Tech | 2022 - Now

I have two years of experience as a developer and began my journey by focusing on the study of HTML/CSS/JS. After a dedicated period of honing these skills, I secured my first internship opportunity at Adven.Tech. Currently, I hold the position of Junior Full-stack Web Developer developer at the company for one year and five months. My technical expertise encompasses proficiency in the following technologies: ASP.NET, .NET CORE, Entity Framework Core, Angular 11, SASS, ElasticSearch, Azure DevOps, Azure Cloud, AKS (Azure Kubernetes Service), SCRUM, Kanban, SQL Server, and SQL Azure. Furthermore, I possess strong interpersonal skills, including effective communication, teamwork, and leadership. I am actively advancing my English proficiency, which currently stands at an intermediate level.
